Log #: 125

Date Rec'd:

Please indicate in which format you wish to receive your ROP/ROC electronic paper download
(Note: If choosing the download option, you must view the ROP/ROC from our website; no copy will be sent to you.)

Date 6/11/11 Name Donald Raffo Tel. No. 860-433-7007

Company Marine Chemist Association 306 Committee Email draffo@gdeb.com
dvraff@comcast.net

Street Address 76 Farmholme Road City Stonington State CT Zip 06378

***If you wish to receive a hard copy, a street address MUST be provided. Deliveries cannot be made to PO boxes.

Please indicate organization represented (if any) Marine Chemist Association

1. (a) NFPA Document Title Standard for the Control of Gas Hazards on Vessels NFPA No. & Year 306 - 2009

(b) Section/Paragraph 1.4 and A.1.4

2. Proposal Recommends (check one): new text revised text deleted text

3. Proposal (include proposed new or revised wording, or identification of wording to be deleted): [Note: Proposed text should be in legislative format; i.e., use underscore to denote wording to be inserted (inserted wording) and strike-through to denote wording to be deleted (~~deleted wording~~).]

1.4* Governmental Regulations. ~~Nothing in this standard shall be construed as superseding existing requirements of any governmental or local authority.~~ The intent of this standard is to assist those using it to meet minimum governmental safety objectives. Attention of owners, repairers, and Marine Chemists is directed to the rules and regulations for tank vessels in 46 CFR 35, "Operations," and other rules and regulations for vessel inspection of the United States Coast Guard and the Occupational Safety and Health Administration standards (OSHA) of the United States Department of Labor, which prescribe an inspection prior to making repairs involving hot work and prior to entering spaces where oxygen deficiency can exist. Those standards provide, under the conditions stated therein, for inspection by a Marine Chemist certificated by the National Fire Protection Association or, alternatively, for inspection by certain other persons.

A.1.4 All applicable regulations, requirements, and standards should be consulted. Some requirements in this standard may differ from governmental requirements to better protect personnel and property.

4. Statement of Problem and Substantiation for Proposal: (Note: State the problem that would be resolved by your recommendation; give the specific reason for your Proposal, including copies of tests, research papers, fire experience, etc. If more than 200 words, it may be abstracted for publication.)

The word supersede can be construed as misleading, causing confusion on the application of the standard. The standard may in some cases supersede an existing regulation or governmental safety objective but will not result with non compliance with any law or governmental authority.

5. Copyright Assignment

(a) I am the author of the text or other material (such as illustrations, graphs) proposed in the Proposal.

(b) Some or all of the text or other material proposed in this Proposal was not authored by me. Its source is as follows: (please identify which material and provide complete information on its source)

Marine Chemist Association, 306 Committee, 41 George Hill Road, Grafton, MA.

I hereby grant and assign to the NFPA all and full rights in copyright in this Proposal and understand that I acquire no rights in any publication of NFPA in which this Proposal in this or another similar or analogous form is used. Except to the extent that I do not have authority to make an assignment in materials that I have identified in (b) above, I hereby warrant that I am the author of this Proposal and that I have full power and authority to enter into this assignment.

Signature (Required) Donald Raffo

PLEASE USE SEPARATE FORM FOR EACH PROPOSAL
